THE DAILY EXAMINER.
WACO, TEXAS, JULY 5, 1881

The political局势 is holding.

Wait awhile until our new dry arrives and then you will see the Texas state doing our duty to the class-marching paper, double or greater size.

Mr. Randall and his followers should not receive my congratulations at the hands of the party at this time. The people demand a true trade break in the platform.

The New York sun thinks Ben Butler is a valuable man for president. The South killed off quite a number of warbirds, and it is in need in stowing Mr. Benjamin Butler away the people will be thankful.

This Statesman says Texas should treat herself to a first-rate governor next November, and further says it won't cost any more than a ten-cent tallow. Good for the Statesman. Texas needs a first-class governor and it is earnestly hoped the Houston convention will give her one.

Texas offers an inviting field to the honest and hard-working ruler of the soil, and parties contemplating immigrating to the Lone Star State and who are looking back to see whether the material-blessed Texans need well-nourished men to help them along, for if there is anything adding the prosperity of Texas is going to do, and let good, it is to set down on fresh grass.

The Hon. John M. Calhoun, chairman of the state executive committee, is very fond of issuing instructions to the democratic party, and the last communication from the honorable gentleman is to the effect that the party should nominate officers in every county from representatives down to a stable. Several of our exchanges think Mr. Calhoun is attempting to play the tailor "massy," and are causing him quite anxiety.

A correspondent in the Waco Messenger says Gen. Sul. Ross' merited compliment and says he learns with pleasure that the name of this illustrious and honored son of Texas will be presented to the Houston convention for the nomination for governor and says that he will receive half a million full votes on the second ballot. This is a critical time in the history of the state when it is necessary to have at the head of the government a man whom the people have implicit confidence and who is capable of managing the affairs of state in a satisfactory manner, and there is no man in the state better fitted to fill the position than Gen. Ross.

Gone Where the Wounds are few
Not."

The "Daily SUNNY SIDE" was assurred by the clouds of misfortune and it has set into set of round shoulders not to rise again. The late proprietors have sold their tools and silent - sold away, having left their material to be disposed of by their creditors. The semi-monthly "Our Sunny South" is said, will likewise be numbered with the dings that were.

With the late troubles between the F. & M. and the Sunnysouth, the now management of the EXAMINER has nothing to do, but remembering its own loss of a few morning's ago that it had "buried the Texan" under the daisies with its "fists up," and "sent it where the weasibles twined not" we are concludid that the EXAMINER has often officiated as pall-bearer, but it is not likely soon to be a corpse. Its temporary "lurid with its toes up," fortunately regarded it easier of resurrection, while it rival fell face forenoon into the pit it had dug for another. Let it rest in peace.

FROM CHICAGO.
Grain and Provision Markets - Ru-
mers of More Financial Trou-
ble from Wall Street.

At Correspondence from Chicago.

Chicago, June 30. - The grain and provision market on the board of exchange is in a bad condition, and the general public is decidedly apprehensive. In fact, it is notorious. There seems to be a constant alarm around. Money is so tight that financial men fear for Wall street, and in fact, and while nearly all the stocks are in trouble, they are at their par value with the exception of a few which are trading at a slight discount. Some of the most popular stocks are down 10 to 15 per cent. and the market is still in a state of great alarm.

With Pen and Pencil.

"The pen and pencil are more despised than any other class of man who has been born into this world," said Mr. A. H. Root, in his Address to the members of the Pen and Pencil Society. All sorts of plumb-line desk work are to be done, and the pen is the best tool on the market.

—Art Critic.

A critic in one of the newspapers I took to day does not speak much of art, writes his article in a very simple, plain style, and the pen and pencil are the best tools for this kind of writing. The critic writes, "We have tested this and the following are the best, but one is not necessarily better than the other." The pen and pencil are the best tools for this kind of writing.
